

**Department of**  
**Philosophy**

**Programme Outcome:**

B.A. (Hons) and B.A. in Philosophy

Philosophy as a subject is concerned with the fundamental questions of life and world. Philosophy is widely known as the pursuit of knowledge or love of wisdom. It invites people to think, to examine the values and entirety of existence. It deals with the fundamental questions of all areas of human enquiry. The principal branches of Philosophy are Epistemology, Metaphysics and Axiology.

Studying Philosophy empowers students with intellectual strength and power of ideas. It makes people free from custom-born habits. Instead of blindly accepting something, Philosophy teaches us to carefully and rationally examine things and situations.

Philosophy is not merely a search of knowledge; it gives us a way of life. It empowers us intellectually, broadens the horizon of our thinking and orients us to more and more meaningful life.
