Report on Bootcamp on Cybersecurity and Cloud Computing

A one-day bootcamp on *Cybersecurity and Cloud Computing* was successfully organized on 19th March, 2026 by the IQAC Pandu College and the Department of Computer Science and Application in association with NIELIT Guwahati.

The primary objective of the bootcamp was to enhance students' understanding of emerging technologies, particularly in the domains of cybersecurity and cloud computing, and to create awareness about digital safety practices in today's technology-driven world.

The resource persons for the session were faculty members from NIELIT, Preeti Devi Narzary and Divya Chouhan. The session was highly informative and interactive, providing valuable insights into the importance of cybersecurity and the growing role of cloud computing in modern IT infrastructure.

Ms. Preeti Devi Narzary conducted a comprehensive two-hour session covering key aspects of cybersecurity and cloud computing. She explained fundamental concepts, types of cyber threats, preventive measures, and real-world applications of cloud services. The session also highlighted the importance of data protection, ethical practices, and career opportunities in these fields.

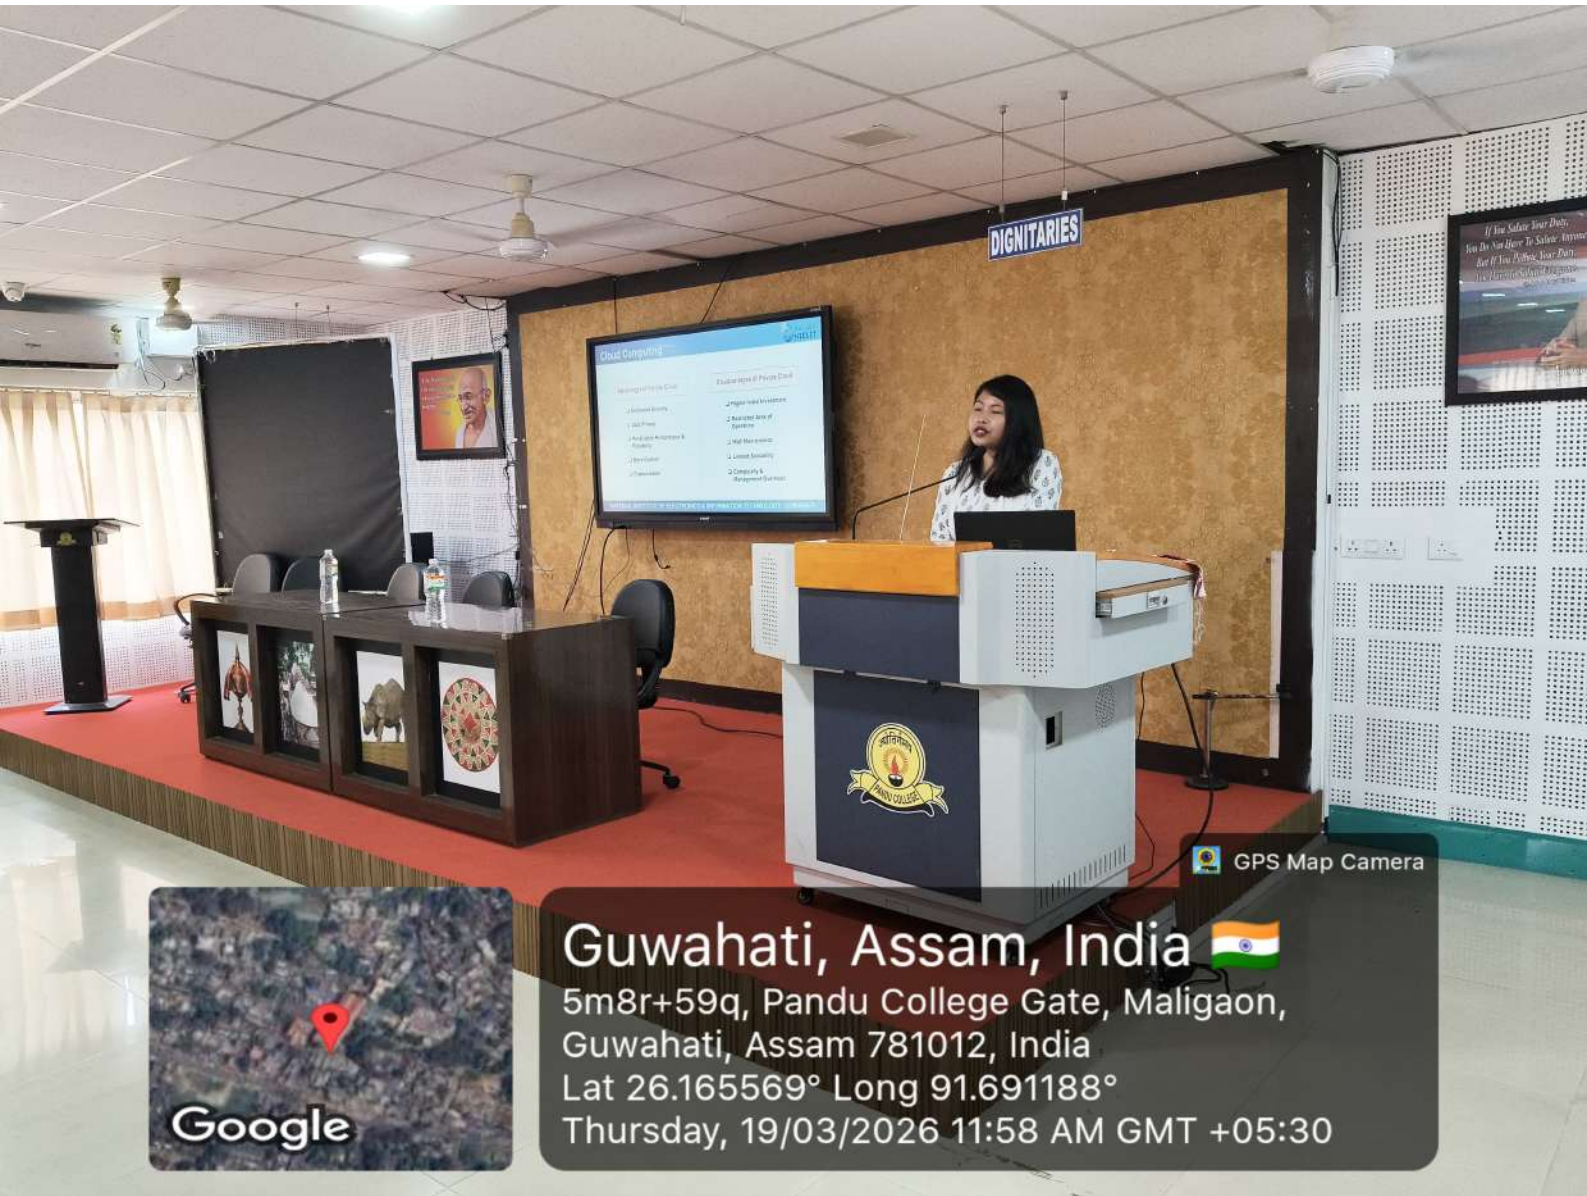

A total of 66 students actively participated in the bootcamp, along with faculty members from the Department of Computer Science and a few teachers from other departments. The participants showed keen interest and actively engaged in discussions during the session.

The bootcamp proved to be highly beneficial, enriching the knowledge base of students and faculty members alike. It successfully achieved its objective of spreading awareness about cybersecurity and cloud technologies, thereby contributing to the academic and professional development of the participants.

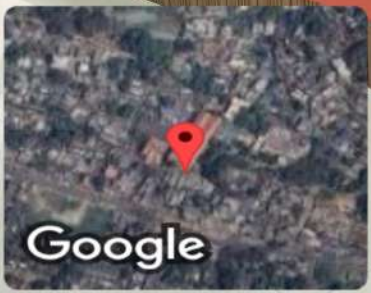

Overall, the program was a great success and reflected the collaborative efforts of the organizing bodies and resource persons.
